

Orienteering in Epping Forest – Full day option

In the classroom, we will introduce each pair to the features of maps including symbols and scale. They will be shown how to use a compass to orientate the map.

In a small area of the forest we may practice these skills through star orienteering, this involves finding the orienteering flags and returning to the start point for checking. When confident each pair will then attempt the full orienteering course, which will be timed. It takes on average 30 minutes to complete.

Please ensure that you bring at least two extra responsible adults when undertaking this activity to ensure safe supervision. We will position adults at different points around the forest.
