

Useful information for when visiting Suntrap

- Make sure you have carried out risk assessments and carry a first aid kit for the journey and any part of the day when you will have sole responsibility for your group (lunch time and afternoons for those having half day tuition).
- Remember to bring enough adults to ensure all of the needs of the children are met. Ensure these adults know and understand their role have read the risk assessments.
- Please make us aware of any medical conditions that children may have which may affect their participation on the day, e.g. asthma pumps, epipens, mobility issues. We do have an all-terrain wheelchair which can be borrowed – please let us know if you require it when booking.
- We regret that there is no café on site or nearby, therefore everyone will need to bring a packed lunch including drinks (we do supply school staff and helpers with unlimited amounts of fair trade tea and coffee). We encourage children to take their rubbish home and re-use it and so do not have bins on site. We do have compost bins for fruit and vegetable waste in every classroom.
- For summer visits we recommend that children bring sun cream, sunglasses and a sunhat for when working outdoors.
- The majority of activities involve working or sitting in groups so it is helpful if they know their groups before they arrive (5 groups will work well for most activities).
